# Chinese Whispers: Choral singing in a second language - Nationwide questionnaire

---

## Section 1: Project information

Chinese Whispers: Choral singing in a second language

01/09/2019-01/03/2022

Question not answered.

The main aim of this research is to study the experiences of singing in a second language. This will be achieved by asking members of choirs who sing in a foreign language to complete a questionnaire about their experiences of being in the choir. The two research questions below will be the focus of the research.

1. What emotional experiences are reported by singers when rehearsing and performing songs in a non-native language?
2. How do these experiences change as the repertoire and language become more familiar during the learning (rehearsal) process?

This study will be an online questionnaire that is sent to choirs such as the Manchester Confucius Institute choir, who predominantly singing in a different language to the native language of the members of the choirs.

## Section 2: Data, Materials, Resource Collection Information

Data collected in this research will be anonymised. No personal information will be collected. The data is an online questionnaire with quantitative and qualitative questions. The data will be kept on an encrypted computer as well as on the University of Hull Box.

Online questionnaire using Jisc surveys.

No

The data will only be available in electronic format.

No

It will be stand alone.

The project is supervised by Dr Elaine King and Dr Shane Lindsay.

### **Section 3: Ethics, Intellectual Property**

All data collected will be anonymised and kept on a secure, encrypted computer. The online survey tool is recommended by the university.

Yes. All data will be anonymised.

Question not answered.

### **Section 4: Access and Use of Information**

The data will only be shared with the supervisors of the project and it will be used for a doctoral thesis. All the data will be anonymous.

The data itself will only be shared with supervisors of the project and an analysis of the data will be published in the doctoral thesis.

The data is anonymised and PDF versions of the answers given from the questionnaire will be kept on the University box. As soon as the survey is closed, they will be deleted from Jisc so only the PDF copies exist.

Only myself and my supervisors will have access to the data.

The analysis of the data will be published in papers or book chapters but the data itself will not be used after this project.

### **Section 5: Storage and Backup of Data**

The data will be stored on the University box site and on an encrypted, password protected computer that only the researcher will have access to.

Upon completion of the project, the questionnaire results will be deleted from Jisc and converted to PDF. The data will be preserved for 10 years after the research has taken place. Once the 10 years is complete, the data will be destroyed. It will be stored on Hydra Digital Repository as this can be set to private and is recommended by the University. The research will be responsible for this data.

The University box site is used for backup of the data.

Yes, during the project the data will be on Jisc as survey results and in PDF form on the University of Hull box.

## **Section 6: Archiving and Future Proofing of Information**

The data will be preserved for 10 years after the research has taken place. Once the 10 years is complete, the data will be destroyed. It will be stored on Hydra Digital Repository as this can be set to private and is recommended by the University.

All the data will be in PDF format.

All data will be anonymised and no personal information is collected.

Question not answered.

Question not answered.

## **Section 7: Resourcing of Data Management**

Eloise McCann - responsibility for data management

Dr Elaine King - access to data

Dr Shane Lindsay - access to data

Question not answered.

Question not answered.

## **Section 8: Review of Data Management process**

Regular reviews with supervisors will ensure the data management is adhered to.

The FACE ethics team will review the data management plan during ethical approval.

## **Section 9: Statements and personnel details**

**Principle investigator**  
**Eloise McCann**
